OBJECTIVE

I am versatile designer and programmer with an attention to detail. I am able to easily adapt to projects that require user interface design, visual design and front end coding. I am looking to work with a team that can challenge my abilities and help me evolve my skill set. I have 15 years of experience working in all facets of front end web design and large scale web applications. I look forward to being able to contribute my years of experience to your company.

KEY PROJECTS

Pershing LLC, Subsidiary of BNY Melon, NETX360 –Web   **(2013 – Current)**
FRONT END DEVELOPER / VISUAL DESIGN LEAD
NetX360 is an application built to help financial professionals effectively perform their daily tasks.
